

Data Management Services

“IMPROVING ASSESSMENT TO FACILITATE EVIDENCE BASED PRACTICE”

Description: Data management services offer reassurance that all GAIN assessments are being administered and collected accurately according to the GAIN Coordinating Center’s principles and practices. Our data submission process is designed to help sites maintain valid and reliable assessment data to support clinical decision-making about diagnosis, placement, treatment planning and program evaluation.

By choosing data management services, our team will export your de-identified GAIN data located in GAIN ABS.

Typical services include:

- Data cleaning and feedback on errors and/or inconsistencies within the data set
- Online Data Management training and one on one assistance with continued site support
- Creation of analytic SPSS data files with additional variables, scales, and indices created and labeled for use by site evaluators and for further analysis

Aggregate Data Reports

Once your site has a minimum of 20 GAIN assessments (GAIN-I or GAIN-Q3) in GAIN ABS, the Data Management Team will generate a Characteristics and Outcomes Site Profile report. This aggregate data report can be an effective tool for analyzing your program’s strengths and weaknesses, and can help secure additional program funding.

The report generates 100+ charts as a Microsoft PowerPoint presentation. This report includes tables and charts displaying:

- Demographic Characteristics
- Outcomes by Severity Level
- Family Living Situation
- Cost to Society
- ASAM Dimensions
- Substance Use Patterns

Package Options

Data management services can be bundled or selected a la carte at the frequency of your choosing to best fit your agency’s needs and budget. Additional data services not mentioned above include: Exporting and reading in data, customizable agency reports, fiscal year data reports, etc.

Getting Started

Minimum Requirements

Valid GAIN License Agreement, GAIN ABS

Base Cost

\$100 for 5 years of Unlimited Use on Paper Only, one time \$100 Agency Setup Fee, \$252 per GAIN ABS user per year or \$2,520 for up to 15 active users per year

Product Enhancement

GAIN Online Training
Data Management

Data Management Services are an additional cost. Contact us today for a product quote to best serve your project needs!
